

<b>ICT Training and Recruitment Centre</b>		
<b>Sector:</b> Education	<b>Project Value:</b> JD 2M	<b>Location:</b> Amman, Irbid
<p><b>Potential Opportunity</b></p> <p>Jordan's ICT sector comprises both Telecommunications and IT services, and since 2002 has ranked in the top 3 for FDI achieved. INT@J, the ICT association, currently has in excess of a 100 members. The industry employs some 19,000 employees.</p> <p>Universities are producing qualified graduates who still need practical experience in business ICT activities. The application of ICT services throughout Jordan continues to expand.</p> <p>Much of the existing training requires residents to go abroad such as for SAP or Oracle skills. Therefore an opportunity exists for a recruitment and training organisation to support the market and its future development.</p>		
<p><b>I. Description of the Business</b></p> <p>Development and operation of a recruitment and training company, covering the fields of IT, telecommunication networks, new media, B2B, e-commerce, business processing activities and knowledge of computer hardware.</p> <p>Investment will be needed in providing suitable premises, IT infrastructure, recruitment and working capital.</p> <p>Where necessary the organisation will be accredited as a qualified training provider.</p>
