

<b>Medical School &amp; Educational Hospital</b>		
<b>Sector:</b> Education	<b>Project Value:</b> 70-90 JDM	<b>Location:</b> Salt
<p><b>Potential Opportunity</b></p> <p>With the excellent reputation Jordan has for its healthcare services representing a preferred destination for patients from many countries in the region, the demand for physicians, surgeons and specialists in the country will continue to rise. This coupled with the fact that a significant percentage of Jordanian youth list medicine as their number one choice for higher education represents a great opportunity for a medical school. There are only two medical schools in Jordan and both are part of public universities that have limited capacities.</p>		
<p><b>I. Description of the Business</b></p> <p>An accredited and internationally affiliated medical school associated with an educational hospital and offering Medical Bachelor and Bachelor of Surgery (MBBS) as well as Higher speciality and M.D degrees.</p> <p>The school and hospital would be located within a complex with a capacity of around 1,000 students in all programs. The school is estimated to employ around 200 academic staff.</p> <p>The educational hospital is estimated to have a 150 rooms with clinical staff estimated to include approximately 170 active medical and dental staff, as well as 140 residents and fellows, 200 nursing and patient personnel as well as 900 other full and part-time employees.</p>
